Description of Other Released Contaminant:

Oil based drilling mud

Inspected:

Written Report Received:

Clean Up Concluded:

Risk Evaluation:

Areal Extent:

Potential Environmental Impacts:

Action Taken or Planned:

Immediately, the onsite rig vacuum was used to vacuum the mud and then a supervac was called to further clean the invert mud off of the ground. The ground was flushed with water and then was vacuumed and put in a three sided tank. The contaminated water, as well as the oil based mud was taken to the Chimney Butte Disposal Site.

Wastes Disposal Location: Chimney Butte Disposal Site.
